

# ALLSCRIPTS PROFESSIONAL EHR

## EXTENDED PROFILE

## OVERVIEW

Allscripts Professional is an EHR solution aimed at medium to large healthcare organizations.

Allscripts Professional EHR software is designed for practices looking to optimize their clinical and operational processes and adopt a simple, connected approach to patient record management. It incorporates scheduling, billing, and prescribing into a single, standardized system that can be accessed by patients and physicians in order to manage their care and treatment. Allscript's open platform connects all of the patient's care providers to enable better diagnosis, decision making, and treatment.

A key feature of Allscripts Professional EHR is ePrescribe, a desktop web application that allows physicians to prescribe patients with medication over the internet. The tool streamlines the diagnosis, prescription and dispensation process and can be customized to an organization's requirements. Moreover, the allergy and interaction tracking functionality allow physicians to quickly see what medicines are suitable for a patient.

Allscripts Professional EHR is a web-based solution, although an iOS application is also available. The solution is hosted on secure Allscripts servers.

## WHAT IS ALLSCRIPTS?

Allscripts is an electronic health records system designed for healthcare organizations to manage their clinical and operational needs. Allscripts Professional EHR provides features including lab integration, scheduling, and managing patient health records.

## IS ALLSCRIPTS A CLOUD-BASED SOLUTION?

Allscripts offers both cloud and on-premise EHR solutions, Allscripts cloud EHR also includes a mobile app so clients can access the system on the go.

## FEATURE OVERVIEW

- ✓ Patient Demographics
- ✓ Patient Portal
- ✓ Scheduling
- ✓ Appointment Management
- ✓ Billing Management
- ✓ Medical Templates
- ✓ Document Management
- ✓ Clinical Workflow
- ✓ EM Coding
- ✓ Referrals
- ✓ Insurance and Claims
- ✓ Lab Integration
- ✓ Patient History
- ✓ Reporting and Analytics
- ✓ Patient History / EMR
- ✓ e-Prescription
- ✓ E&M Coding
- ✓ Insurance & Claims
