

ECLINICALWORKS 10E

EXTENDED PROFILE

OVERVIEW

The eClinicalWorks EHR system aims to improve provider workflow through its desktop, mobile, and tablet platforms. Comprising of EMR and PM components which are designed to cater to practices and enterprises of all sizes and specialties. The system contains functionality able to support over 40 specialties and sub-specialties which are supported by one integrated database.

eClinicalWorks 10e is able to make the referral process easier for the user. with 10e, patient information sharing is possible with providers who aren't using eClinicalWorks. The system also allows the user to build their own network of care providers.

Another feature is healow Hub, a solution for information gathering on patients who aren't in the office. The system is able to pull data from wearables and monitoring devices straight into the EMR.

eClinicalWorks 10e is a cloud-based EHR that allows multiple device integrations, telehealth capabilities, and hospital interoperability.
