

PULSEEHR

EXTENDED PROFILE

OVERVIEW

PulseEHR is designed for ambulatory surgical centers, multi-site practices, integrated delivery networks, and management services organizations of a range of sizes. The EHR can be set up to work with many specialties, including cardiology, family practice, nephrology, neurology, orthopedics, and urology.

Flexibility is a prominent feature of PulseEHR. The EHR can be deployed through the cloud or on-premise and is customizable to the needs of each individual provider. This means it can accommodate a wide range of workflows and clinician preferences within a single practice. PulseEHR is ONC certified and provides the features needed to qualify for government incentive programs.

The PulseEHR platform comes with e-prescribing and there is an easy-to-use patient portal. The clinical management dashboard is customizable and there is automated care and order management, point-of-care electronic charting, and an integrated document, fax, and transcription management tool. The EHR also offers claim scrubbing tools, to ensure clients get the best billing rates.

PulseEHR offers on-site training and implementation. There is also online support through a dedicated customer portal and live service support advisors are available on the telephone. PulseEHR users are provided with their own dedicated account manager.

SOFTWARE SCREENSHOTS

The screenshot displays the PulseCloud software interface. At the top, there is a navigation bar with the user name 'James Brown, Provider Full', the organization 'Kimo Family Practice', and a search bar. The main content area is titled 'Patients to be seen - 6' and shows a list of appointments for today, 11/15/2016, assigned to Dr. James Brown. The appointments are listed in a table with columns for Time, Patient Details, Visit Details, Status, and Action. The left sidebar contains navigation options such as 'Tasks To Review', 'Rx Renewals', 'File Lab Reports', 'Unassigned Encounters', 'Unwatched Patient Records', 'Reminders', 'Overdue Tasks I Have Assigned', and 'Transmissions Have Failed'. A mouse cursor is visible over the 'Transmissions Have Failed' button.
