EHR IN PRACTICE

SOAPWARE EHR

EXTENDED PROFILE

SOAPware®

OVERVIEW

SOAPware has been in business for over 20 years providing patient care, billing, and medical records software solutions. Available through the cloud or on-premise delivery, SOAPware EHR is compliant with ambulatory EHR regulations as well as ICD-9 and ICD-10 coding systems. SOAPware EHR can also be accessed on iOS, Android, and Windows tablets. The EHR/EMR is suitable for small to mid-sized practices, specialists, and enterprise environments.

Alongside their EHR systems, SOAPware's product line includes practice management solutions, SOAPware Cloud Solutions, and a proprietary micro-cloud solution called myHEALTHware.

The SOAPware Cloud Solutions product, or SCS, is one of their newer product offerings. With the SCS program, more integrated support is provided at the point of care, including imaging, test results, notes, and billing information.

All SOAPware HIT products come equipped with analytic capabilities, and the myHEALTHware product allows for projections by individual physicians, care teams, and departments.

FEATURE OVERVIEW

- ✔ Patient Portal
- ✔ Scheduling
- ✔ Appointment Management
- ✔ Billing Management
- ✔ Medical Templates
- ✔ Document Management
- ✔ EM Coding
- ✔ Insurance and Claims
- ✔ Lab Integration
- ✔ Patient History
- ✔ Reporting and Analytics
