

# SUNRISE EHR

# EXTENDED PROFILE

## OVERVIEW

Allscripts Sunrise Clinical Manager is an EHR built for large clinical enterprises.

Sunrise EHR is designed to support physicians in their decision-making by providing aggregated patient information, documentation, and events via a user-friendly interface. Allscripts Sunrise uses a decision support engine to amalgamate patient data and provides key information to physicians to aid them in the diagnosis and treatment processes which allows physicians to enter information in real-time as they interact with patients.

Sunrise EHR has key features for integrated medication management enabling physicians and pharmacists to share information in real time about patients' medication and well-being. Sunrise Clinical Manager has a radiology module that enables radiologists and physicians to cooperate in a paperless environment, streamlining decision-making and reducing treatment time.

## WHAT IS SUNRISE EHR?

Sunrise Clinical Manager is an electronic health records (EHR) system built by Allscripts. The Allscripts Sunrise charting system enables physicians to keep track of patient charts and use searches, as well as handle electronic medical records.

## DOES SUNRISE CLINICAL MANAGER HAVE AN APP?

Sunrise EHR is a Windows-based application, implemented either on-premise, as a hosted service, or in the cloud. Allscripts also offers a native iOS application.
